**Creating Labor Management Partnerships Dec 14 2019** The book begins with a call for changing the social and political barriers existing in unionized work settings and emphasizes the critical need for union-management cooperation in the present context of international competition. The authors discuss the deterioration of U.S. industry in such fields as automobiles, heavy equipment, steel, and air transportation and illustrate how internal cooperative relations may ultimately fail because of overemphasis on communication problems, the reactive nature of the OD process, and the inability to achieve a true partnership.

This encyclopedia provides the most detailed and complete account ever given of Ford tractors, from the earliest Fordsons to the Ford-Fergusons, the Ford N Series, and the Ford "world" tractors manufactured into the 1970s. Amply illustrated, the book also offers extensive information on the numerous options and accessories, implements and variations that came out of Dearborn, Sherman Bros., and the great Funk Bros. hotrod conversions that could make each of these popular machines utterly unique. Written and compiled by the chief engineer of the Ford N Series tractors and the world's best-known Ford tractor historian, this encyclopedia is the ultimate one-stop resource for anyone with an interest in Ford tractors.

**Modern mergers and acquisitions, or M&A as it's more commonly known, is a new phenomenon. The buying and selling, the breaking up and combining of companies-the essence of M&A-has been a part of commerce throughout history, but only in our era has M&A itself become a business. In 2007, before the recession hit, it was a \$4.4 trillion global enterprise. And yet, it remains largely unexplored. Discrete stories have been pulled from the annals of M&A, both true and fictionalized, that have become touchstones for wealth and excess. Who can forget Gordon Gekko and his "Greed is Good" speech? But while there have been a few iconic characters and tales to emerge, no one has told the rich history of M&A, until now. This is a look into that world and the people who created it. This reads like Dallas meets Wall Street, told through an intriguing narrative that not only brings to light in gritty detail all of the back**

room drama of such powerful players as Carl Icahn and Ronald Perelman, Marty Lipton and Joe Flom, Jimmy Goldsmith and Sumner Redstone, but also reveals how the new generation, including activist whirlwind Bill Ackman and iconoclastic new Delaware judge Leo Strine, will dominate the next tsunamic, and imminent, M&A boom.
