The first survey of the political, economic, religious and cultural landscapes of medieval India. Presents a consolidated timeline of medieval India by taking into account the period that marked the end of ancient India, and focusing on the importance of the transitory centuries when Delhi had begun to surface as the new power center, triggering prominent trends in thought and institutions. This book analyzes the nature of social forces, complexity of causation and the interdependence of change and continuity in the light of the crucial transition from ancient to early medieval India, with the emergence of the Delhi Sultanate and the Vijayanagar-Bahmani kingdoms. Proceeding to detail the most effervescent period in Indian history - the era of the great Mughals - the text provides an insight into the ideological-philosophical basis of the times, focusing on the Sufi and Bhakti movements, and culminates with the rise of the Marathas, the advent of European companies, and the eventual establishment of the British in Bengal.

keeping in mind that the history of medieval India has not moved in a linear fashion, and that much of the period saw phases of expansion and realignment of political attributes, this book contributes to a deeper understanding of the much misread period of Indian history with a view that takes into account the resultant interface between the political, social, economic, religious and cultural elements and devotes to this crucial period the attention it deserves. the centuries has been a popular subject among authors. Yet, only a  
few other than K.A. Nizami record in rich detail the cultural, social,  
economic, and spiritual fabric of the city—the ‘gorgeous blaze of  
glory’ that was Delhi—between the thirteenth and eighteenth  
centuries. He presents his accounts of the periods of the Delhi  
Sultanate, the Mughals, and the poet Ghalib through the analyses of  
wide-ranging sources: original literary, travel, biographical,  
hagiographical, and administrative accounts in Persian, Hindavi, and  
Urdu. This book is a compilation of the historian’s lectures  
delivered at the University of Delhi and the Ghalib Institute in  
Delhi, first published in Urdu in 1972. The author’s conversational

Illustrations: 1 B/w Illustration Description: The rule of the Khalji dynasty (AD 1290-1320) covers a short but fateful period of Indian

history. During this period practically the whole of India was gathered under the suzerainty of Alauddin Khalji (1296-1316). His valour in war was matched with his courage in the field of administration. His accomplishments in the spheres of art and culture were equally great. Alauddin Khalji and his dynasty have found an able historian to pen their history, and the result is as satisfying as it is instructive. Professor K.S. Lal's History of the Khaljis has been acclaimed as a great work on this period of the history of medieval India. When it was first published thirty years ago in 1950, Professor Mohammad Habib commented: Dr. K.S. Lal has managed to fill a very important gap in our national history. I have read his work several times with pleasure and profit. (He) has utilized for his work all contemporary authorities which seem to be within the reach of the present generation in Persian, Hindi and Sanskrit. He has critical discrimination and complete freedom from all prejudices...No student of Indian history can afford to ignore Dr. Lal's excellent work. Similarly, Sir Hamilton Gibb wrote to the author in a letter in September 1952: At all events, I do want to thank you for a work which will be of the greatest service to me and others for its critical examination of the sources...I have no sympathy with those ideological investigators who think that by standing the old chroniclers on their heads they will somehow be able to extract from them materials for re-writing history to fill their own preconceptions. Professor Lal's work contains no shibboleths or generalizations. It is based on solid facts and primary source materials. A revised edition of the work was published in 1967 and the Time Literary Supplement, London, noted in its issue of 14 December, 1968: When the book was (first) published...it took its place at once among the standard authorities...for the Khalji dynasty...In its latest form, this book is unlikely to be superseded. The statement has held good all these years. • Best Selling Book in English Edition for UPSESSB PGT History Exam with objective-type questions as per the latest syllabus given by the UPSESSB. •

Perhaps the fiercest debate on the Indus civilization is over the reasons for the end of the India's earliest cities. Did they dramatically collapsed or was there steady urban decline? Was the decline a result of in roads by the Aryans or did rivers, earthquakes, or climatic shifts contribute to the disintegration? Was the end marked by a cultural fracture or regional migrations from the core areas to the areas which offered better subsistence possibilities? The recent studies do not accept the Aryan invasion theory or the inundation theory or the tectonic upliftment concept as it is not warranted by any scientific or rationale evidences. It seems likely that the decline of the Harappan civilization was mainly due to ecological imbalances. The delicate ecological balances of semi-arid areas (Harappa and Mohenjodaro) was being disturbed because the human and cattle populations in these areas was fast depleting the scanty forest, food and fuel resources. Thus, the growing populations of men and animals confronted by scanty resources wore out the landscape. This depletion of the subsistence base caused strain on the entire economy. Moreover, the drift of the monsoon to the west necessitated the Harappan people to migrate to the areas of Gujarat, Haryana which provided better survival possibilities.
