Practical Mysticism in Islam and Christianity Jul 22 2020 Practical Mysticism in Islam and Christianity offers a comparative study of the works of the Sufi-poet Jalal al-Din Rumi (1207-1273) and the practical teachings of the German Dominican, Meister Eckhart (c1260-1327/8). Rumi has remained an influential figure in Islamic mystical discourse since the thirteenth century, while also extending his impact to the Western spiritual arena. However, his ideas have frequently been interpreted within the framework of other mystical, philosophical, or religious systems. Through its novel approach, this book aims to reformulate Rumi's practical mysticism by employing four methodological principles: a) mysticism is a coherent structure with mutual interconnection between its parts; b) the imposition of alien structures to interpret any particular mysticism damages its inward coherency; c) practical mysticism consists of two main parts, namely practices and stages; and d) the proper use of comparative methodology enables a deeper understanding of each juxtaposed system. Eckhart's speculative mysticism, which differs from and enjoys similarities with the love-based mysticism of Rumi, provides a "mirror" that highlights the special features of

Rumi's practical mysticism. Such comparison also allows a deeper comprehension of Eckhart's practical thought. Offering a critical examination of practical mysticism, this book is a valuable resource for students and scholars of Islamic studies, comparative mysticism, and the intellectual history of Islam.

Caliphate Redefined Jul 14 2022 How the Ottomans refashioned and legitimated their rule through mystical imageries of authority The medieval theory of the caliphate, epitomized by the Abbasids (750–1258), was the construct of jurists who conceived it as a contractual leadership of the Muslim community in succession to the Prophet Muhammed's political authority. In this book, Hüseyin Yılmaz traces how a new conception of the caliphate emerged under the Ottomans, who redefined the caliph as at once a ruler, a spiritual guide, and a lawmaker corresponding to the prophet's three natures. Challenging conventional narratives that portray the Ottoman caliphate as a fading relic of medieval Islamic law, Yılmaz offers a novel interpretation of authority, sovereignty, and imperial ideology by examining how Ottoman political discourse led to the mystification of Muslim political ideals and redefined the caliphate. He illuminates how Ottoman Sufis reimagined the caliphate as a manifestation and extension of cosmic divine governance. The Ottoman Empire arose in Western Anatolia and the Balkans, where charismatic Sufi leaders were perceived to be God's deputies on earth. Yılmaz traces how Ottoman rulers, in alliance with an increasingly powerful Sufi establishment, continuously refashioned and legitimated their rule through mystical imageries of authority, and how the caliphate itself reemerged as a moral paradigm that shaped early modern Muslim empires. A masterful work of scholarship, Caliphate Redefined is the first comprehensive study of premodern Ottoman political thought to offer an extensive analysis of a wealth of previously unstudied texts in Arabic, Persian, and Ottoman Turkish.

How to Sit on the Throne of the Godless God of the Seventh Day Sep 23 2020 Perhaps you've thought that the traditional ways of understanding God are lacking in resonance and relevance—that there must be more to the concept of divinity than the anthropomorphic, gender-exclusionary, ethically and logically problematic God of Christianity, Judaism, and Islam. If so, this beautiful book may be the path to enlightenment that you've been seeking. Uthimaniyya, or Trans-Sufism, embraces the idea that there is an ultimate spiritual experience, called The Consciousness of the Eternal Now, or Sitting on the Throne of God. This experience is not dependent on any past religion—instead, it is realized through observing a mathematically mystical version of the Seventh Day (the Throne Sabbath) that is more compatible with a belief in God as everything, and everything as God. Since a God that is everything cannot have a personhood, it is referred to as the impersonal God, or the Godless God. The Throne Sabbath is based on a radical reinterpretation of the biblical and qur'anic myth of the creation of the world in six days, and a seventh day when the Creator rested

(Bible) or retreated to His throne (Qur'an). Inspiring and transcendent, How to Sit on the Throne of the Godless God is the guide you need to access a new viewpoint.

Crossover Stars in the Hindi Film Industry Jan 28 2021 This book explores the cultural politics of Pakistani crossover stardom in the Hindi film industry as a process of both assimilation and "Otherness". Analysing the career profiles of three crossover performers - Ali Zafar, Fawad Khan, and Mahira Khan - as a relevant case study, it unites critical globalization studies with soft power theory in exploring the potential of popular culture in conflict resolution. The book studies the representation and reception of these celebrities, while discussing themes such as the meaning of being a Pakistani star in India, and the consequent identity politics that come into play. As the first comprehensive study of Pakistani crossover stardom, it captures intersections between political economy, cultural representation, and nationalist discourse, at the same time reflecting on larger questions of identity and belonging in an age of globalization. Crossover Stars in the Hindi Film Industry will be indispensable to researchers of film studies, media and cultural studies, popular culture and performance, peace and area studies, and South Asian studies. It will also be of interest to enthusiasts of Indian cinematic history.

Kizilbash-Alevis in Ottoman Anatolia Feb 15 2020 The Kizilbash were at once key players in and the foremost victims of the Ottoman-Safavid conflict that defined the early modern Middle East. Today referred to as Alevis, they constitute the second largest faith community in modern Turkey, with smaller pockets of related groups in the Balkans. Yet several aspects of their history remain little understood or explored. This first comprehensive socio-political history of the Kizilbash/Alevi communities uses a recently surfaced corpus of sources generated within their milieu. It offers fresh answers to many questions concerning their origins and evolution from a revolutionary movement to an inward-looking religious order.

Classical Persian Sufism Feb 21 2023 CLASSIC PERSIAN SUFISM: FROM ITS ORIGINS TO RUM is a unique introduction into the rise and development of Persian Sufi spirituality and literature. Written in the form of essay the book focuses historically upon the first six Muslim centuries and captures the mood of the mystics' meditative, interiorized, highly sophisticated vision of Islam.

Cultural Fusion of Sufi Islam Mar 18 2020 It has been argued that the mystical Sufi form of Islam is the most sensitive to other cultures, being accommodative to other traditions and generally tolerant to peoples of other faiths. It readily becomes integrated into local cultures and they are similarly often infused into Sufism. Examples of this reciprocity are commonly reflected in Sufi poetry, music, hagiographic genres, memoirs, and in the ritualistic practices of Sufi traditions.

This volume shows how this often-side-lined tradition functions in the societies in which it is found, and demonstrates how it relates to mainstream Islam. The focus of this book ranges from reflecting Sufi themes in the Qur'anic calligraphy to movies, from ideals to everyday practices, from legends to actual history, from gender segregation to gender transgression, and from legalism to spiritualism. Consequently, the international panel of contributors to this volume are trained in a range of disciplines that include religious studies, history, comparative literature, anthropology, and ethnography. Covering Southeast Asia to West Africa as well as South Asia and the West, they address both historical and contemporary issues, shedding light on Sufism's adaptability. This book sets aside conventional methods of understanding Islam, such as theological, juridical, and philosophical, in favour of analysing its cultural impact. As such, it will be of great interest to all scholars of Islamic Studies, the Sociology of Religion, Religion and Media, as well as Religious Studies and Area Studies more generally.

*Seljuqs Nov 06 2021 Despite the many important developments and innovations traceable to the Seljuq period (5th-7th/11th-13th centuries), the Seljuqs remain one of the understudied Muslim dynasties. This unique collaborative exploration of the Seljuqs' achievement contributes to the growing interest in this pivotal dynasty. The various chapters in this volume cover a representative geographical spectrum, from Central Asia and Persia to Iraq, Syria and Anatolia, and address novel questions such as the ideological foundations and ritual expressions of Seljuq power, the mutual attitudes of the learned classes and the Seljuq state, the organization of space, and the relationship between nomads and the settled peoples. The book is divided into three parts: the origins of the Seljuqs, their gradual transformation into a powerful dynasty, and their concepts of political legitimization (part one); the social history of the Seljuq period, particularly with regard to the 'ulama' and the urban populations (part two); developments in religious thought, jurisprudence, belles-lettres and architecture under the Seljuqs (part three). Sufism and the Way of Blame Oct 05 2021 Gold Winner of the 2012 Benjamin Franklin Award and the 2012 Independent Publisher Book Award! This is a definitive book on the Sufi "way of blame" that addresses the cultural life of Sufism in its entirety. Originating in ninth-century Persia, the "way of blame" (Arab. malamatiyya) is a little-known tradition within larger Sufism that focused on the psychology of egoism and engaged in self-critique. Later, the term referred to those Sufis who shunned Islamic literalism and formalism, thus being worthy of

“blame.” Yannis Toussulis may be the first to explore the relation between this controversial movement and the larger tradition of Sufism, as well as between Sufism and Islam generally, throughout history to the present. Both a Western professor of the psychology of religion and a Sufi practitioner, Toussulis has studied malamatiyya for over a decade. Explaining Sufism as a lifelong practice to become a “perfect mirror in which God contemplates Himself,” he draws on and critiques contemporary interpretations by G. I Gurdjieff, J. G. Bennett, and Idries Shah, as well as on Frithjof Schuon, Martin Lings, and Seyyed Hossein Nasr. He also contributes personal research conducted with one of the last living representatives of the way of blame in Turkey today, Mehmet Selim Ozic.

Islamic Manuscripts of Late Medieval Rum, 1270s-1370s Apr 18 2020 Between the Mongol invasions in the mid-13th century and the rise of the Ottomans in the late 14th century, the Lands of Rum were marked by instability and conflict. Despite this, a rich body of illuminated manuscripts from the period survives, explored here in this extensively illustrated volume. Meticulously analysing 15 beautifully decorated Arabic and Persian manuscripts, including Qur'ans, mirrors-for-princes, historical chronicles and Sufi works, Cailah Jackson traces the development of calligraphy and illumination in late medieval Anatolia. She shows that the central Anatolian city of Konya, in particular, was a dynamic centre of artistic activity and that local Turcoman princes, Seljuk bureaucrats and Mevlevi dervishes all played important roles in manuscript production and patronage.

The Female Voice in Sufi Ritual Sep 04 2021 The female voice plays a more central role in Sufi ritual, especially in the singing of devotional poetry, than in almost any other area of Muslim culture. Female singers perform sufiana-kalam, or mystical poetry, at Sufi shrines and in concerts, folk festivals, and domestic life, while male singers assume the female voice when singing the myths of heroines in qawwali and sufiana-kalam. Yet, despite the centrality of the female voice in Sufi practice throughout South Asia and the Middle East, it has received little scholarly attention and is largely unknown in the West. This book presents the first in-depth study of the female voice in Sufi practice in the subcontinent of Pakistan and India. Shemeem Burney Abbas investigates the rituals at the Sufi shrines and looks at women's participation in them, as well as male performers' use of the female voice. The strengths of the book are her use of interviews with both prominent and grassroots female and male musicians and her transliteration of audio- and videotaped performances. Through them, she draws vital connections between oral culture and the written Sufi poetry that the musicians sing for their audiences. This research clarifies why the female voice is so important in Sufi practice and underscores the many contributions of women to Sufism and its rituals.

The Mughals and the Sufis Oct 13 2019 Examines the relationship between Mughal political culture and the two dominant strains of Islam's Sufi traditions in South Asia: one centred around orthodoxy, the other focusing on a more accommodating and mystical spirituality. Based on a critical study of a large number of contemporary Persian texts, court chronicles, epistolary collections, and biographies of sufi mystics, The Mughals and the Sufis examines the complexities in the relationship between Mughal political culture and the two dominant strains of Islam's Sufi traditions in South Asia: one centered around orthodoxy, the other focusing on a more accommodating and mystical spirituality. Muzaffar Alam analyses the interplay of these elements, their negotiation and struggle for resolution via conflict and coordination, and their longer-term outcomes as the empire followed its own political and cultural trajectory as it shifted from the more liberal outlook of Emperor Akbar "The Great" (r.

1556-1605) to the more rigid attitudes of his great-grandson, Aurangzeb 'Alamgir (r. 1658-1701). Alam brings to light many new and underutilized sources relevant to the religious and cultural history of the Mughals and reinterprets well-known sources from a new perspective to provide one of the most detailed and nuanced portraits of Indian Islam under the Mughal Empire available today. Muzaffar Alam is George V. Bobrinskoy Professor in South Asian Languages and Civilizations at the University of Chicago. He is the author of several books, including, The Languages of Political Islam: India 1200-1800 and The Crisis of Empire in Mughal North India: Awadh and the Punjab, 1707-1748.

Morals and Mysticism in Persian Sufism Aug 23 2020 Sufism is often understood to be the mystical dimension of Islam, and many works have focused on the nature of "mystical experiences" and the relationship between man and God. Yet Sufism was a human response to a wide range of contexts and circumstances; the fact that Sufis lived in society and interacted with the community necessitating guidance on how to behave. This book examines the development of Persian Sufism, showing it to be a practical philosophy of the everyday rather than just a metaphysical phenomena. The author explores the ethic of futuwwat (or jawanmardi), an Iranian code of honour that emphasised loyalty, humility, generosity and bravery. Although inevitably some Sufis spiritualised this code of honour and applied it to their own relationship with God, the ethic continued to permeate Sufi behaviour on a more mundane level, typified by the strong links between Sufis and certain trades. Drawing on field research in Iran, as well as detailed analysis of both Arabic and Persian texts and new materials that have been published in Iran in recent years, this is the first book in English to provide a history of Persian Sufi-futuwwat. As such, this book is an important contribution to the study of Persian Sufism, and to the fields of Islam, history and religion.

Sufism and Society Mar 10 2022 In recent years, many historians of Islamic mysticism have been grappling in sophisticated ways with the difficulties of essentialism. Reconceptualising the study of Islamic mysticism during an under-researched period of its history, this book examines the relationship between Sufism and society in the Muslim world, from the fall of the Abbasid caliphate to the heyday of the great Ottoman, Mughal and Safavid empires. Treating a heretofore under-researched period in the history of Sufism, this work establishes previously unimagined trajectories for the study of mystical movements as social actors of real historical consequence. Thematically organized, the book includes case studies drawn from the Middle Eastern, Turkic, Persian and South Asian regions by a group of scholars whose collective expertise ranges widely across different historical, geographical, and linguistic landscapes. Chapters theorise why, how, and to what ends we might reconceptualise some of the basic methodologies, assumptions, categories of thought, and interpretative paradigms which have heretofore shaped treatments of Islamic mysticism and its role in the social, cultural and political history of pre-modern Muslim societies. Proposing novel and revisionist treatments of the subject based on the examination of many under-utilized sources, the book draws on a number of disciplinary perspectives and methodological approaches, from art history to religious studies. As such, it

will appeal to students and scholars of Middle East studies, religious history, Islamic studies and Sufism.

Awhad al-Dīn Kirmānī and the Controversy of the Sufi Gaze Feb 09 2022 Awḥad al-Dīn Kirmānī (d. 1238) was one of the greatest and most colourful Persian Sufis of the medieval period; he was celebrated in his own lifetime by a large number of like-minded followers and other Sufi masters. And yet his form of Sufism was the subject of much discussion within the Islamic world, as it elicited responses ranging from praise and commendation to reproach and contempt for his Sufi practices within a generation of his death. This book assesses the few comments written about Kirmānī by his contemporaries, and also provides a translation from his Persian hagiography, which was written in the generation after his death. The controversy centres on Kirmānī's penchant for gazing at, and dancing with, beautiful young boys. This anonymous hagiography presents a series of anecdotes that portray Kirmānī's "virtues". The book provides an investigation into Kirmānī the individual, but the story has significance that extends much further. The controversy of his form of Sufism occurred at a crucial time in the evolution of Sufi piety and theology. The research herein situates Kirmānī within this critical period, and assesses the various perspectives taken by his contemporaries and near contemporaries. Such views reveal much about the dynamics and developments of Sufism during the thirteenth and fourteenth centuries, when the Sufi orders (ṭurūq, s. ṭarīqa) began to emerge, and which gave individual Sufis a much more structured and ordered method of engaging in piety, and of presenting the Sufi tradition to society at large. As the first attempt in a Western language to appreciate the significant contribution that Kirmānī made to the medieval Persian Sufi tradition, this book will appeal to students and scholars of Sufi Studies, as well as those interested in Middle Eastern History.

Evaluating the Circumstances May 12 2022 IT'S FINALLY HERE As a boy growing up, I always wondered if there was something more to life than what I was taught, surprisingly enough, there really is, much more than you would expect. Through the experiences in life, research and of luck or was it? I have observed that the, supposedly, intelligent people in the world might not be so wise after all. I have learned, as you are maturing out in society that some of life is a humongous cover up. Explaining this to you means, all of these lies exist out of religion and politics. I used to believe that mom and dad were responsible for these lies that were told to us, BUT only because they didn't know that they were being lied to also. It never had crossed their minds of anything being wrong in society because that's just the way the system works. However, even though I expose these lies to you, some will be agitated by the information for the reasoning of "Parents are never wrong" at least not your parents ,therefore society, proceeds along for you, on the merry way of ignorance for not even considering that perhaps it just might be true. This book is not written to convert you to any particular religion or towards any corrupt ways of politics. It only provides you with information which otherwise was hidden from you, purposely or it was unavailable for you. The choice of belief or of non belief is of your choice. It may appear to you while reading this book that I am prejudice and or biased in my

writing. This is a misconception on the part of the reader showing me, as well as to others, that you do not understand that of what you are reading and of what the writing was intended for. I certainly am not a 'God' nor a prophet but a concerned human being who is upset because if you are less aware of a situation then the more people are suckered into a unseeingly way of life, controlled by those who know how to manipulate the masses of people. **THE BEAUTY OF LIFE HAS BEEN CORRUPTED**

Mustafa Âli's Epic Deeds of Artists Mar 30 2021 This critical edition of Mustafa Âli's Epic Deeds of Artists about the lives and works of calligraphers and painters offers insight into the artistic, cultural, social, and religious traditions that produced the great artists of the Ottoman and Persianate worlds.

Religions, Nations, and Transnationalism in Multiple Modernities Jun 13 2022 This edited book explores the impact of globalisation on the relationship between religion and politics, religion and nation, religion and nationalism, and the impact that transnationalism has on religious groups. In a post-Westphalian and transnational world, with increased international communication and transportation, a plethora of new religious recompositions religions now take part in a network society that cuts across borders. This collection, through its analysis of historical and contemporary case studies, explores the growth of both national and transnational religious movements and their dealings with the various versions of modernity that they encounter. It considers trends of religious revitalisation and secularisation, and processes of nationalism and transnationalism through the prism of the theory of multiple modernities, acknowledging both its pluralist world view but also the argument that its definition of modernity is often so inclusive as to lose coherence. Providing a cutting edge take on 21st century religion and globalization, this volume is a key read for all scholars of religion, secularisation and transnationalism.
