In Meg Medina's compelling novel, a Latina teen is targeted by a bully at her new school—and must discover resources she never knew she had. Una mañana antes de ir a clase, una chica le dice a Piddy Sánchez que Yaqui Delgado quiere darle una paliza. Piddy ni siquiera sabe quién es Yaqui, y mucho menos qué es lo que ha hecho para hacerla enfadar. Se dice que Yaqui piensa que Piddy es vanidosa, que se menea al caminar y que no es lo suficiente latina dada su piel blanca, sus buenas calificaciones y su falta de acento. Y Yaqui no bromea, así que mejor que Piddy se cuide su espalda. En un principio, Piddy está más preocupada por saber más sobre su padre al que nunca conoció y cómo equilibrar los cursos de honores y su trabajo de fin de semana en el salón de belleza de su barrio. Pero, a medida que el hostigamiento aumenta, el hecho de evitar a Yaqui y a su grupo empieza a ganar terreno y a ocupar un lugar importante en la vida de Piddy. ¿Existe alguna forma de que Piddy sobreviva sin aislarse o sin escapar? En esta novela fuertemente realista, Meg Medina retrata a una heroína solidaria que es forzada a decidir quién es verdaderamente.. This book is a printed edition of the Special Issue "Manufacturing and Surface Engineering" that was published in Coatings Em Uma rosa no concreto, Angie Thomas revisita os personagens do sucesso O ódio que você semeia. Conheça a história de Maverick Carter aos 17 anos e de como ele se tornou o pai de Seven e Starr. Maverick Carter sabe que um homem de verdade cuida da própria família. Como filho de uma ex-lenda da gangue King Lords, Mav faz isso da única maneira que conhece: vendendo drogas. O dinheiro serve para ajudar a mãe, que trabalha em dois empregos para sustentar a casa enquanto o pai está na prisão. Com apenas 17 anos, sabe que sua vida não é perfeita, mas com uma namorada de tirar o fôlego e um primo superprotetor, Mav tem tudo sob controle. Ou melhor, tinha... até descobrir que é pai de um bebê de três meses. Conciliar a vida nas ruas, os estudos e ainda ser um bom pai não é tarefa fácil. Ainda mais com Iesha, a mãe do bebê, deixando todo o trabalho em suas mãos. Por isso, quando tem a chance de dar um rumo diferente a sua vida, Maverick aproveita. Em um mundo que espera sua derrota, Mav quer provar que é diferente. Afinal, até rosas conseguem florescer nas situações mais adversas. Mas com o sangue dos King Lords correndo em suas veias, deixar tudo para trás pode ser um verdadeiro desafio. A lealdade, a vingança e a responsabilidade de Mav são postas à prova, especialmente depois do brutal assassinato de um ente querido. Ele terá que descobrir por si mesmo o que realmente significa ser um homem. Uma rosa no concreto oferece uma visão sincera e delicada sobre a masculinidade negra, tanto de jovens quanto de adultos. "Rothman's novel is filled with scientific discussions on everything from the equipment used to the different types of fusion, like cold or laser, complete with corresponding jargon. But Rothman turns all of it, even a convoluted conspiracy, into a diverting, worthwhile story... Intelligent in its technical details, but also refined and delightfully complex in its storytelling." -- Kirkus The world is moving towards alternative energy. Two giant laboratories, one in France, one in Texas, are engaged in a contest to give mankind a limitless source of energy-fusion, the energy source of stars. In France, the European Union is constructing the colossal ITER project. At CFRC, the Controlled Fusion Research Center near Austin, a scientists have constructed a machine they call Prometheus to challenge ITER. When the director of the Austin lab attempts to achieve fusion on the day of Prometheus' dedication, a near-fatal accident ensues, and in an instant the rivalry between ITER and CFRC becomes a race to change the future of the world. But was it an accident, or sabotage? Prominent physicist and writer Tony Rothman, PhD, uses his technical expertise to create a rare and timely novel based on genuine science. Not science fiction, the science of Firebird is as real as the collision between science and politics it portrays. Rothman, who has taught physics at Princeton and Harvard Universities, is the author of eleven books. He has won numerous writing awards and has been nominated for the Pulitzer Prize. Dos pasados que dejan huella: Él, Massimo, un divorcio reciente y una exmujer sofocante que usa a su hija para hacerle chantaje emocional. Amigos para guardar las apariencias, amantes gracias a un pacto. ¿Conseguirán huir de sus prejuicios?, ¿de sus miedos?, ¿de su orgullo? ¿Se puede empezar una relación al revés, pasando del sexo a la amistad sin complicaciones? Entre incomprendiones, discusiones y sonrisas se desarrolla esta historia romántica e irónica.
